

I was reluctant to hire a bookkeeper, as I didn't want the expense, and thought I could save the money and do it myself. Boy was I wrong. I hired Balson Bookkeeping to take care of my books, and there is no question in my mind that in the long run Sally will have saved me tons of money by really keeping my in touch with watching my expenses, and saving me the time of taking care of it myself. The time I save on a monthly basis is easily equal to at least 1 full days work, if not more, which is huge for me in growing my business.
